

Fendall Pure Flow 1000 and 2000 Emergency Eyewash Stations

Attention Safety Officers and Battery Maintenance Managers:
Mesa has the solution for Meeting and Maintaining
ANSI Battery Room Eye Wash Requirements

Product Features & Customer Benefits

ANSI Requirements:

- The patented system permits thorough flushing with a constant flow rate and stream height that provides 0.4 gpm for the entire 15-minute cycle required by ANSI Z358.1-2004

Cost savings

- Self contained so *no plumbing required*
- Only minutes to install
- Reduced maintenance and Inspection times
- Built-in waste water reservoir eliminates spill hazards and simplifies disposal

Factory Sealed Fluid Cartridges Last for 24 Months

- Eliminates mixing, measuring and the opportunity for airborne particles or microorganisms to contaminate the fluid prior to use
- Factory Sealed Cartridges last 4X longer than other primary self contained devices
